SUMMARY

A motivated vocational high school student with a strong passion for growth in Information Technology. Experienced in developing digital projects and actively involved in organizations and community activities. Currently exploring and building skills in **frontend development and UI/UX design**, with a strong eagerness to learn and contribute in a professional environment.

EDUCATION

SMK TI BAZMA - Information Systems, Networks & Applications **Oct 2024 - Oct 2025**

An IT-based boarding school with a 4-year program, focusing on programming, web development, IoT, networking, and computer systems, while building discipline and teamwork through a structured environment.

SKILL

- **Technical / Hard Skills**: Programming(JavaScript, NextJs, ReactJs, NodeJs, Laravel), Design(Figma, Canva), Administrative Staff(Microsoft Office, Google Shets, Google Docs)
- **Soft Skills**: Effective Communication, Teamwork & Collaboration, Problem Solving
- **Language**: Indonesia (Native) English (Beginner)

PROFESSIONAL EXPERIENCE

Entrepreneurship - Student Council SMK TI BAZMA **Aug 2024 - Apr 2025**

- Collaborated with team members to coordinate tasks, ensuring clear communication and smooth execution of projects and events.

Finance & Operations – Ruang Tunggu (Student Business Team) **Aug 2024 - Apr 2025**

- Manage the finances of a small-scale coffee business, including recording income and expenses, calculating capital and team member salaries. Develop copywriting skills for promotions and develop KPIs to improve team performance and business operational effectiveness.

UI/UX Designer & Frontend Developer (Team-based Projects) **Aug 2025**

- **SMK TI BAZMA Official Website** Contributed to the development team by improving UI/UX design, enhancing accessibility, and refining information structure to support a better user experience, resulting in improved usability and a more user-friendly interface.
- **HIMPANA (Himpunan Pensiunan Pertamina)** Collaborated with the development team to redesign and maintain the HIMPANA website through UI/UX improvements, as well as optimizing accessibility and ease of use by creating a clear user flow and improving visual clarity and information structure, thus providing a more optimal user experience.
- **KajianQu (SMK TI BAZMA)** Designed the interface and user experience for a mobile Quran learning application (KajianQu) based on user needs and client guidance, through user flow design, wireframes, and prototypes. Optimized ease of use, visual clarity, and information structure to support features such as reading correction and memorization, thus helping users learn more focused and consistently.

PROJECT

BEST | Bazma Excellent Showcase Of Talents - (Figma, React, Node Js) **July 2025**

- A digital platform for SMK TI BAZMA students and alumni to showcase portfolios online, making their best work accessible to the public, industry, and future collaborators. Reference : *best.com*

PROJECT

SMK TI Bazma - (Figma, Next Js, Typescript, Tailwind CSS) **Aug 2025**

- Developed the official SMK TI Bazma website as a centralized platform for school information, student project showcase, experience documentation, and digital service access. Reference: *smktibazma.sch.id*

HIMPANA | Himpunan Pensiunan Pertamina - (Figma, Next Js, Typescript, Tailwind CSS) **Oct 2025**

- Web-based platform for community and blog management that allows users to register as members, publish content, and engage within a structured community system. Reference : *himpana.com*
